Application/Control Number: 10/815,322

Art Unit: 3724

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

 Claims 1-21 and 24-26, drawn to a cleaning device/system, classified in class 30, subclass 537.

Page 2

- II. Claims, drawn to 22-23, drawn to a replaceable reservoir, class 220, subclass 4.28.
- III. Claims 27-31, drawn to a method of replacing a reservoir, classified in class 29, subclass 426.1.
- 2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because claim 22 is the evidence that the combination does not rely upon the recess of the subcombination for its patentability. The subcombination has separate utility such as using the reservoir as a pencil holder.
- 3. Inventions I/II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product of

Application/Control Number: 10/815,322

Art Unit: 3724

invention Group I can be used in holding a bunch of flowers, and the product of

invention Group II can be used in holding writing instruments.

4. Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art as shown by their different classification, restriction

for examination purposes as indicated is proper.

5. If Invention Group I is elected, the following restriction applies:

6. This application contains claims directed to the following patentably distinct

species of the claimed invention:

Species I (Figs.2-3);

Species II (Fig.5); and

Species III (Figs.6-7).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for

prosecution on the merits to which the claims shall be restricted if no generic claim is

finally held to be allowable. Currently, claims 1 and 2 are generic.

Applicant is advised that a reply to this requirement must include an identification

of the species that is elected consonant with this requirement, and a listing of all claims

readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless

accompanied by an election.

Page 3

Art Unit: 3724

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Point of Contact

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hwei-Siu C. Payer whose telephone number is 571-272-4511. The examiner can normally be reached on Monday through Friday, 7:00 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on 571-272-4514. The fax phone numbers for the organization where this application or proceeding is assigned are 571-273-8300 or official communications and 571-273-4511 for proposed amendments.
